

VOLLEYBALL WEATHER CANCELLATION POLICY

Volleyball is only cancelled in the case of threatening weather. Threatening weather is the presence of lightning in the area or dangerous high winds and heavy rain.

DO NOT call the bar to ask if the matches will be played. As a general rule, you should always assume that the matches will be played. Many times it may be raining heavy in the NW part of town, but there will be clear weather SE. I will rarely post the cancellation of matches for the entire night....too often, this type of scenario plays out: The 5:30 matches end up being cancelled due to lightning, but the 6:30 are played in light rain. The 7:30 and 8:30 matches have absolutely beautiful weather.

Procedure should be as follows: assume that the matches will be held. If the weather does not allow the match to start on time, please wait for 20-30 minutes to see if the weather clears....if it does, you can start the match and play as many games as time allows (do not go over the allotted 1 hour of play as it will affect the following matches). If the weather does not clear in the 20-30 minutes, the match should then be cancelled. Unfortunately, the busy schedule does not allow for make-up games.
